Task Group 3

a. Design and develop a national and regional GNIS;
b. Design, document and implement ICE models and strategies; develop and package PRS92 ICE materials for dissemination;
c. Undertake a nationwide tri-media ICE campaign and/or awareness programs for users of PRS92, GPS and data integration technologies;
d. Package and administer training programs in coordination with the other Task Groups and stakeholders; maintain linkages with experts on geodesy, geophysics and other allied fields; and
e. Perform other tasks as may be directed by the undersigned.

Task Group 4

a. Operationalize the Project Management Office;
b. Undertake and/or oversee research and development activities; undertake policy development including compliance monitoring;
c. Undertake project planning, monitoring and evaluation activities;
d. Facilitate Project Steering Committee meetings and organize fora and conferences; strengthen cooperation between NAMRIA, DENR Regional Offices and other stakeholders;
e. Perform contract administration as necessary; and
f. Perform other tasks as may be directed by the undersigned.

Coordinating Instructions:

a. Deputy Administrator Evangeline Cruzado shall exercise overall supervision of the Task Force.

b. Close coordination between and among Task Groups shall be observed. Task Groups are hereby authorized to tap the services of non-member officers and employees whenever necessary.

c. The Development Studies & Standards Office (DSSO) shall act as Secretariat of the Task Groups.

d. All expenses incurred in the discharge of these functions and responsibilities shall be charged against the PRS92 Project funds.

This Order shall take effect immediately.
