NAMRIA guests on ANC *Future Perfect*

Engineer Leo Grafil (second from right) of the NAMRIA Mapping and Geodesy Department and Counselor Andrew Egan of the Australian Agency for International Development (AusAID) are shown above during their live interview with *Future Perfect* host Mr. Tony Velasquez. The interview was held on 21 September 2011 at the Studio 6 of the ABS-CBN television network. It was conducted in connection with the recent AusAID handover of the light detection and ranging (LiDAR) data to NAMRIA and the Office of Civil Defense through the Enhancing Risk Analysis Capacities for Flood, Tropical Cyclone, Severe Wind, and Earthquake for Greater Metro Manila Area Project or Risk Analysis Project. The topics included the technical aspects of LiDAR and how NAMRIA will use the LiDAR data, specifically in geohazard mapping. *Future Perfect* is a locally produced talk show that focuses on the latest trends in technology and their impact on the various aspects of the life of the Filipino people. The ABS-CBN News Channel (ANC) airs the program which debuted on 11 June 2010. *xra*
