Subscription may be requested thru e-mail at maritime.affairs@namria.gov.ph

THE PHILIPPINE NOTICES TO MARINERS is the monthly publication produced by the Hydrography Branch of the National Mapping and Resource Information Authority (NAMRIA). It contains the recent charts correction data, updates to nautical publications, and other information that is vital for the safety of navigation on Philippine waters.

Copies in digital format may be obtained by sending a request through e-mail address: css.gismb@namria.gov.ph or by downloading at the NAMRIA website: www.namria.gov.ph/download.php.

Masters of vessels and other concerned are requested to advance any report of dangers to navigation and other information affecting Philippine Charts and Coast Pilots which may come to their attention to the ***Director, Hydrography Branch***. If such information warrants urgent attention like for instance the non-existence of aids to navigation or failure of light beacons or similar structure or discovery of new shoals, all concerned are requested to contact NAMRIA directly through the following portals:

Mail: NAMRIA-Hydrography Branch,
421 Barraca St San Nicolas, 1010 Manila, Philippines
E-mail: maritime.affairs@namria.gov.ph
Fax: (+632) 8242-2090

The Hydrographic Note form at the back-cover page of this publication must be used in reporting information on dangers to navigation, lighted aids, and other features that should be included in the nautical charts.

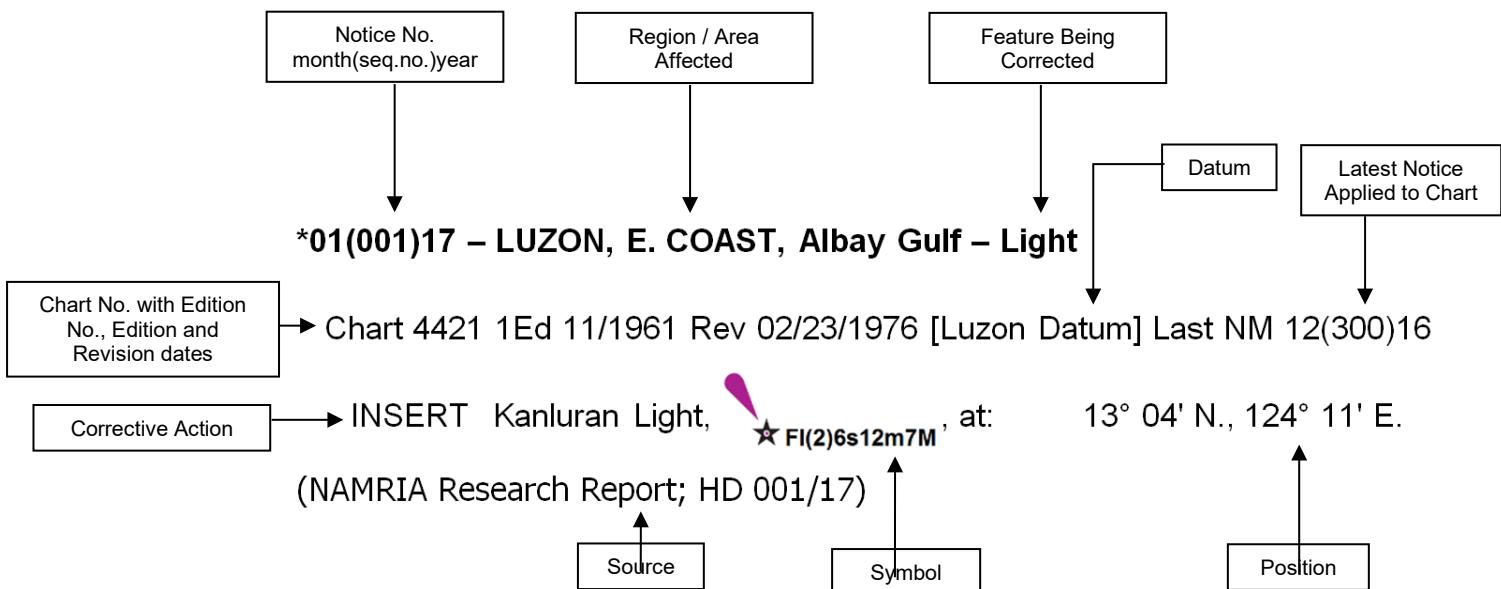

Subscribe to the **Philippine Online Maritime Safety Information System (OMSIS)**, <http://namria.gov.ph/omsis/landing.aspx> to access the Nautical Chart Corrections Service (e-NCC), Cumulative List of Notices to Mariners, and online Hydrographic Notes (e-HNote).

Explanatory Notes

1. The Philippine Notices to Mariners is divided to following sections:

Section I. Index of Charts Affected – Contains the list of all nautical charts which have been affected by Notices to Mariners and the Notice Numbers which have affected them.

Section II-A. Notices to Mariners - Contains corrections to nautical charts in sequential number with the indication of the month and year of its issuance. The illustration below describes the elements that comprise a typical notice:

Notice No. preceded by asterisk “ * ” indicates that the information is based upon original Philippine source.

Section II-B. Temporary & Preliminary Notices – Contains Notices to Mariners that temporarily affects the nautical charts or have preliminary information that is subject to further verification. The capital “P” or “T” affixed in the number of any notice denotes “preliminary” or “temporary”, respectively.

A list of Temporary and Preliminary Notices that are still in force, as well as those that are canceled, is published in this publication every month. The list may be read on page iv.

Section III-A. Corrections to List of Lights – Contains the corrections to the latest edition of the Philippine List of Lights. The entire entry for each light will be printed and the columns that contains updates will be denoted by an asterisk “ * ”. All columns will be denoted by asterisks in the case of new lights.

This section is intended to be cut out and pasted on the section of the List of Lights that is being corrected.

All updates to lighted aids, including their operational status, will be published in this section. All directions and bearings are measured clockwise from true the North 000° to 360°. Bearing on lights is based on the observer from seaward toward the light. The visibility assigned to the lights never exceeds the calculated distance at which they can be seen from a height of 4.57 meters above the level of the water at high tide.

Changes in aids to navigation, their maintenance and correction of deficiencies in operation are under the operation of the Philippine Coast Guard. Report of defects and recommendations concerning aids to navigation should be forwarded to the Commandant of the Philippine Coast Guard.

Section III-B. Coast Pilot Corrections – Contains the corrections to the latest edition of the Philippine Coast Pilot book.

Section IV. Navigational Warnings – Contains the reprints of all previously issued navigational warnings that are still in effect as of the publication date of this edition of the Philippine Notices to Mariners.

Section V. Publication Notices – Contains the latest updates on the nautical charts, electronic navigational charts, and other nautical publications of NAMRIA.

2. NAMRIA issues Notices to Mariners and Navigational Warnings sourced from private entities, foreign publications, national government agencies, and local government units. Such information is published for the sake of safety of navigation on Philippine waters and does not imply recognition of the legal validity of the information issued by the abovementioned sources.
3. While every effort is made to ensure the accuracy of NAMRIA nautical charts and publications, users should bear in mind that it may not be complete or up-to-date, especially in areas where there are extensive developments. Mariners are advised to exercise prudence and to also refer to all navigational equipment aboard ship and use a lookout during navigation.
4. Masters of vessels are warned that great care should be exercised in navigating Philippine waters because of the low visibility and occasional failure of some navigational lights. Buoys and beacons are sometimes lost or destroyed specially after typhoons. Temporary deficiencies in the standard aids to navigation published in this office may have been corrected before subsequent notice is issued.
5. Positions obtained from satellite navigation systems, such as GPS, are normally referred to the WGS-84 Datum. Such position may only be plotted on NAMRIA nautical charts that are also referred to the WGS-84 Datum. Mariners should take note that due to the age and quality of some of information, such satellite-derived positions may be more accurate than charted details.

List of Temporary and Preliminary Notices

(in force as of 28 February 2023)

- 02(032)T23 PALAWAN, N. Coast, Coron Bay – Buoy
- 02(031)T23 LUZON, W. Coast, Manila Bay – Buoy

V
COAST PILOT CORRECTIONS

Philippine Coast Pilot, 7th Ed. Volume 2

Chapter 4 – Calamian Group and Cuyo Islands

Page 4-11, right column, line 4.

Insert:

Caution - A submarine cable is present in N coast of Culion Island. It passes through between the Horse Island and Malcatop Island, crosses at the Northern part of Malbinchilao, Mangenguey, and Popototan Island. Anchoring within the area is strictly prohibited.

Page 4-17, right column, line 43.

Insert:

Caution – A submarine cable proceeded at the Western side of Maunutglubut Island, Lauauan Island, and Calibang Island. This area is under the Province of Palawan and near to Linapacan Island. Anchoring and fishing are prohibited in the vicinity of the submarine cable.

Chapter 5 – Palawan Island and Kalayaan Island Group

Page 5-1 left column, line 37.

Replace:

Caution - A submarine cable and pipeline are present off the N coast of Palawan Island. Anchoring, trawl fishing, the use and dumping of explosives, and other activities that may harm the cable and pipeline are prohibited within 500 m of the pipeline.

Page 5-2, left column, line 54.

Insert:

Caution - A submarine cable set in at Sibaltan, located at the Eastern part of El nido Palawan. It continued east of Darocutan Island before turning NNE of Cabuli Island and NNW of Calitan Island. It proceeds to the landing site at San Vicente after passing the western side of Tapiutan Island. Anchoring and fishing are prohibited in the vicinity of submarine cable.

Page 5-52 left column, line 55.

Insert:

Caution - A submarine cable is situated at the Western side of Palawan. Layed at San Vicente, passes through at the Northern part of Boayan Island and continues at NW of Cacnipa Island and Cacboldo Island. The cable landed at Anepahan, west coast of Puerto Princesa. Fishing and anchoring are prohibited in the vicinity of the submarine cable.

Page 5-69, right column, line 43.

Insert:

Caution – Submarine cables, and Gas and Oil pipelines are laid NW of Ladd Reef, Western part of Johnson Patch, and Southern of Kingston Shoal. All ships are advised to take precaution when navigating the area. Fishing and anchoring are prohibited in this area.

V
COAST PILOT CORRECTIONS

Philippine Coast Pilot, 7th Ed. Volume 1

Chapter 5 – Luzon Island

Page 5-1 left column, line 17.

Insert:

Marine Protected Area. Northern Sierra Madre Nature Park extends 1 km from the Eastern coast of Luzon from the boundary of Cagayan and Isabela to Digollorin Bay. Environmentally harmful activities are prohibited in the area. See Republic Act No. 9125 for complete list of prohibited activities in the area and its buffer zone.

Page 5-33 left column, line 10-12.

Replace:

Caution - A sunken wreck with least depth of 27 m, about 0.6 mile SW of Kalaklan Point Light, is at the entrance of Port Olongapo. A plane wreck is further located at Lower Mau area near the shore of Maritan Pt. It is about 25 m in length and its wingspan is about 32 m. The least depth is 4.5 m. A 135-m long ship wreck with a least depth of 13.70 m is also reported 110m S of Alava Wharf.

Page 5-33 left column, line 14-17.

Replace:

Caiman Shoal, near the middle of Port Olongapo, has a least depth of 12.5 m. A yellow flashing buoy is marking the shoal. A shipwreck with a least depth of 15.60 m is located E of the shoal. Another shipwreck about 110-m in length with a least depth of 16.80 m is located 500m ENE of the shoal.

Page 5-33 left column, line 19-20.

Replace:

Carrasco Shoal is a small patch with a least depth of 12.80 m, located about 0.5 mile NW of Nagcaban Point.

Page 5-33 left column, line 21.

Insert:

Another shoal with a least depth of 13.6m is located about 0.15 mile SE of Carrasco Shoal.

Page 5-33 left column, line 22-24.

Replace:

Cubi Shoal, about 0.6 mile NW of Cubi Point, has a least depth of 3.30m. About 0.18-mile SW of Cubi Shoal is a shoal with a least depth of 4.10m. A red flashing buoy marks the NW end of another shoal about 0.1 mile N of Cubi Shoal with a least depth of 4.40m.

Page 5-33 left column, line 43-45.

Delete:

Boton Wharf (648 m berth length), located at the S corner of Port Olongapo, is for use of cargo and container vessels.

Page 5-33 left column, line 45.

Insert:

Boton Wharf (448m berth length), located at the S corner of Port Olongapo, is used for cargo and container vessel. Yellow flashing buoys are placed E and W of the Boton Wharf entrance.

Page 5-33 left column, line 47.

Replace:

New Container Terminal (474 m berth length) is located on Cubi Point.

PUBLICATION NOTICES

1. Newly published and Updated Nautical charts
 - a. Chart 4473 – Port of Casiguran
Scale 1: 5000, 1st Edition, 29 November 2022
 - b. Chart 4474 – Port of Magallanes
Scale 1: 5000, 1st Edition, 29 November 2022
 - c. Chart 4475 – Port of Castilla
Scale 1: 5000, 1st Edition, 29 November 2022
 - d. Chart 4447 – Cebu Harbor and Approaches
Scale 1: 30 000, 4th Edition, 29 November 2022
2. Mariners are requested to Notify the Hydrography Branch, NAMRIA of any changes or discrepancies found on Nautical charts and Nautical publications issued by this office, especially if this affects Navigational safety on Philippine Waters. Reported information may be sent using the Hydrographic Note or the Hydrographic Note for Port Information, which are on the succeeding pages.

Reports may be sent through the following means:

Mail: NAMRIA – Hydrography Branch, 421 Barraca St San Nicolas, Manila 1010
Email: maritime.affairs@namria.gov.ph and maritime.concerns@gmail.com
Fax: (+632) 8242-2955
Onsite: <http://namria.gov.ph/omsis/HNote10.aspx>

Reference Number			<input type="checkbox"/> Tick box if not willing to be named as source of this information	
Name of ship or sender				
	Name	Signature	IMO Number	Date
Address of sender				
E-mail Address			Telephone/Mobile No.	

INSTRUCTIONS (At the back)

Subject			
General Locality			
Position:	Latitude	Longitude	
Position fixing system used		Datum	
Charts affected		Edition	
ENCs affected			
Latest Notice to Mariners held			
Nautical Publications affected (Edition No.)			
Details of anomaly or observation			
A replacement copy of Chart No. _____ is required (see Instruction 4).			

INSTRUCTIONS

1. Mariners are requested to Notify the Hydrography Branch of the National Mapping and Resource Information Authority (NAMRIA) when New or suspected dangers to Navigation are discovered, changes observed in aids to Navigation, or corrections to publications that are seen to be Necessary. Mariners can also report any ENC display issues experienced.
2. This form and its instructions have been designed to help both the sender and the recipient. It should be used, or followed, closely, whenever appropriate. Copies of this form may be obtained gratis from the Hydrography Branch at 421 Barraca St San Nicolas, Manila, or by requesting thru email at maritime.affairs@namria.gov.ph.
3. **Position:** When a position is defined by sextant angles or bearings (true or magnetic being specified) more than two should be used in order to provide a check. Distances observed by radar should be quoted. However, when there is a series of fixes along a ship's course, only the method of fixing and the objects used Need to be indicated. Latitude and longitude should only be used specifically to position the details when they have been fixed by astronomical observations or GPS and a full description of the method, equipment and datum used should be given.
4. **Paper Charts:** A cutting from the largest scale paper chart is the best medium for forwarding details, the alterations and additions being shown thereon in red. When requested, a New copy will be sent in replacement of a chart that has been used to forward information, or when extensive observations have involved defacement of the observer's chart. If it is preferred to show the amendments on a tracing of the largest scale chart (rather than the chart itself) these should be in red as above, but adequate detail from the chart must be traced in black ink to enable the amendments to be fitted correctly.
5. **Soundings:** When soundings are obtained, it is important to ensure that full details of the method of collection are included in this report. This includes Nut No limited to:
 - a. Make, model, and type of echo sounder used.
 - b. Whether the echo sounder is set to register depths below the surface or below the keel; in the latter case the vessel's draught should be given.
 - c. Time, date and time zone should be given in order that corrections for the height of the tide may be made where Necessary, or a statement made as to what corrections for tide have already been made.
 - d. Where larger amounts of bathymetric data have been gathered, only those areas where a significant difference to the current chart or ENC should be specifically mentioned on the H102. The full data set may also be sent in, with an additional Note added to this effect. If No

significant differences are noted, the bathymetric data may still be of use, and sent in accordingly. Where full data sets are included, a Note as to the data owner and their willingness for the data to be incorporated into charts and ENCs included.

6. For Echo Sounders that use electronic 'range gating', care should be taken that the correct range scale and appropriate gate width are in use. Older electro-mechanical echo sounders frequently record signals from echoes received back after one or more rotations of the stylus have been completed. Thus, with a set whose maximum range is 500m, an echo recorded at 50m may be from depths of 50m, 550m or even 1050m. Soundings recorded beyond the set's Nominal range can usually be recognized by the following:
 - a. the trace being weaker than Normal for the depth recorded;
 - b. the trace passing through the transmission line;
 - c. the feathery Nature of the trace.
- As a check that apparently shoal soundings are Not due to echoes received beyond the set's Nominal range, soundings should be continued until reasonable agreement with charted soundings is reached. However, soundings received after one or more rotations of the stylus can still be useful and should be submitted if they show significant differences from charted depths.
7. Reports which cannot be confirmed or are lacking in certain details should Not be withheld. Shortcomings should be stressed and any firm expectation of being able to check the information on a succeeding voyage should be mentioned.
8. Changes to Port Information should be forwarded using Hydrographic Note for Port Information. Where there is insufficient space on the forms additional sheets should be used.
9. Reports using this form and relevant data should be sent either through mail at NAMRIA-Hydrography Branch, 421 Barraca St San Nicolas, Manila or through email at maritime.affairs@namria.gov.com and maritime.concerns@gmail.com.

An acknowledgement or receipt will be sent and the information then used to the best advantage which may mean immediate action or inclusion in a revision in due course; for these purposes, the UKHO may make reproductions of any material supplied. When a Notice to Mariners is issued, the sender's ship or Name is quoted as authority unless (as sometimes happens) the information is also received from other authorities or the sender states that they do Not want to be Named by using the appropriate tick box on the form. An explanation of the use made of contributions from all parts of the world would be too great a task and a further communication should only be expected when the information is of outstanding value or has unusual features.

HYDROGRAPHIC NOTE FOR PORT INFORMATION

NAMRIA-HNC-Form11 Rev01

Page ____ of ____

NOTES

1. This form lists the information required for Philippine Coast Pilot and has been designed to help the sender and the recipient. The sections should be used as an aide-memoir, being used or followed closely, whenever appropriate. Where there is insufficient space on the form an additional sheet should be used.
2. **Reports which cannot be confirmed or are lacking in certain details should Not be withheld.** Shortcomings should be stressed and any firm expectation of being able to check the information on a succeeding voyage should be mentioned.
3. **DATA PRIVACY STATEMENT:** NAMRIA values your right to data privacy. We are committed to be faithful stewards in safeguarding your personal and sensitive information under the Data Privacy Act of 2012 (RA 10173). We ask for your personal information and email addresses on our Hydrographic Notes so we can confirm receiving the Note. We do Not use your information in any way other than in the furtherance of our vision and mission as Philippines Hydrographic Office.
